

# HEALTHCARE FACILITIES

## HAPPIER AND HEALTHIER WITH ALERTON

### **THE ALERTON ASCENT BUILDING MANAGEMENT SYSTEM UNIFIES ALL KEY AREAS OF OPERATION IN YOUR HEALTHCARE FACILITY.**

We understand the special challenges your healthcare facility faces in an era of rising operating costs, demands for increased patient health and comfort, and the need for maximum system performance. You require 24/7 reliability throughout your facility's specialized and diverse areas such as:

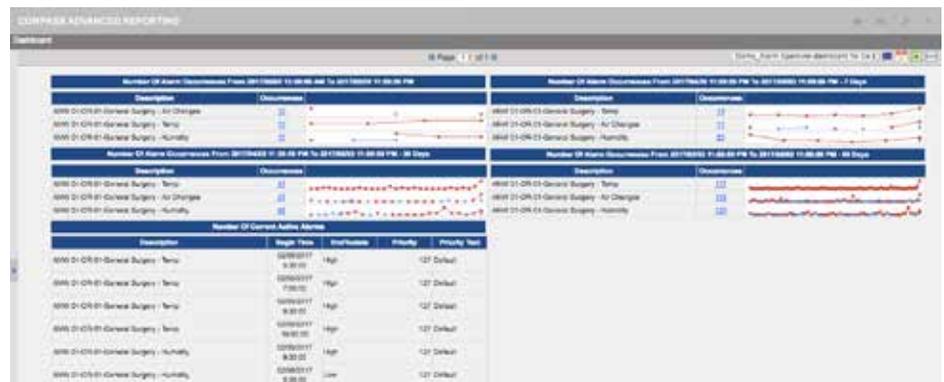

- Energy Management
- Physical Environment Risk Management
- Patient Health and Comfort Automation
- Operating Room Control
- Isolation Room Control
- Emergency/Critical Systems Monitoring
- Fire/Life Safety Integration
- Security/Access/CCTV Integration
- Audio-visual Nurse Call Monitoring
- Customized reports, useful for high demand needs of jurisdictional authorities

**ALERTON**  
Inspiration. Innovation. Integration.

**PATIENTS DEMAND  
EXCEPTIONAL CARE  
FROM YOU. YOU CAN  
EXPECT THE SAME  
FROM US.**

**Our Ascent system is easy to use and infinitely expandable.** Award-winning 3-D graphics and intuitive operator interfaces help your staff achieve your facility's full potential. BACnet® interoperability and expandable devices are designed to conserve your resources and maximize your return on investment. Connect with a local dealer who is an expert at engineering, installation, integration and support. With Alerton, you have a partner who knows the healthcare environment and provides creative, cost-effective solutions.
